

# The American Institute of Architects Continuing Education Systems AIA/CES Registered Provider Program Summary

Provider Name: Activar Construction Products Group / JL Industries

**Program Title: Specifying Life Saving Automated External Defibrillators & First Aid Oxygen Units on Your Next Project**

### Program Overview:

Over 140,000 AEDs (Automated External Defibrillators) were placed for public use in 2005. AEDs and First Aid Oxygen Units are quickly becoming the Standard of Care in public and private facilities nationwide. In fact some states and local codes now require AEDs in schools, health clubs and other public facilities. Not only find out how easy it is to specify the equipment but how easy it is to use the equipment to save someone's life.

### Learning Objectives:

1. Understand the importance of having an AED and First Aid Oxygen unit on-site.
2. Understand that even a "naive sixth grader" can effectively operate this equipment with little or no training.\*
3. Specifying Life Saving AEDs and first aid oxygen is as easy as specifying Life Saving fire extinguishers.

**Facilitator Qualifications:** Kevin Sheppard; Life Safety Product Manager

BS degree in Education

3-Time speaker at the National CSI Convention

Published articles in *The Construction Specifier* and *Doors and Hardware Magazines*

**Method of Delivery:**

Power Point Slide Presentation with hands on product demonstration  
Can be either a "Lunch & Learn" format or simply a one-hour presentation

**Audio/Visual required:** Screen

**Cost to participants:** - 0 -

**Length:** One Hour

**Credits:** One LU (Learning Units)

**HSW:** Yes

**Contact:** Kevin Sheppard
