American Made Products by JL Industries, Inc.

Our Roof Hatches, HSP High Security Panels, cabinets, fire protection accessories and entrance foot grilles are either completely manufactured in the USA or the significant component parts are "substantially transformed" within the United States.

Our TM & FD access panels, fire extinguishers and mounting brackets are normally manufactured in the USA but isolated part #s could be foreign made. When bidding "Buy American" projects we make sure that only "Made in America" parts are bid.

Please indicate that products must meet those qualifications at the time of ordering so that we may provide the proper documentation for you.

If you have any questions or need additional information please do not hesitate to contact me by calling (800)-554-6077.

Sincerely,

Kevin Sheppard
Product Manager
