

CARE OF METAL FINISHES FOR YOUR JL INDUSTRIES PRODUCTS

US3	Polished & lacquered brass	Use a soft cloth and mild soap and water. Never use brass polish or an abrasive cleaner unless you intend to remove all lacquer and totally re-finish the product.
US4	Satin finish & lacquered brass	Use a soft cloth and mild soap and water. Never use brass polish or an abrasive cleaner unless you intend to remove all lacquer and totally re-finish the product.
US9	Polished & lacquered bronze	Use a soft cloth and mild soap and water. Never use brass polish or an abrasive cleaner unless you intend to remove all lacquer and totally re-finish the product.
US10	Satin finished & lacquered bronze	Use a soft cloth and mild soap and water. Never use brass polish or an abrasive cleaner unless you intend to remove all lacquer and totally re-finish the product.
US10B	Oxidized & oiled bronze	Use a soft cloth and a paste furniture wax. Buff lightly so as not to remove the dark oxide coating where it remains.
313/315	Dark bronze or black anodized aluminum	Use a soft cloth and mild soap and water.
US32	Polished stainless steel	Use a soft cloth and mild soap and water solution. After cleaning, thoroughly rinse with clear water to remove all traces of the solution and wipe dry to prevent water marks from forming. Stains which resist that treatment can usually be removed by polishing in the direction of the grain with a soft cloth and a non-abrasive stainless steel polish.
US32D	Satin stainless steel
